

Call for Papers

Don't miss this great opportunity to meet, share and learn from other actuaries from all over the world.

Because today's economy needs a strong actuarial base of professionals to support its operations, this colloquium will have top actuarial expositors presenting the latest actuarial and scientific techniques with practical applications. Some of the key scientific areas of this meeting will be:

ASTIN

- Loss reserving and capital adequacy
- Insurance pricing and optimization
- Reinsurance and risk transfer
- Risk management
- Natural hazards, disaster, catastrophe risks and pricing
- Capital management, allocation and pricing
- Dividend theory and practice
- Longevity, health, critical illness and employment insurance
- Risk theory
- Copulas: theory and applications
- Extreme value statistics

AFIR/ERM

- Investment and asset allocation
- Portfolio risk management
- Bond portfolio management
- Asset/Liability Management (ALM)
- Enterprise risk management (ERM)
- Risk measures and capital allocation
- Managing retirement accumulations and decumulations
- Dynamic asset allocation
- Asset and derivative pricing
- Longevity, health and mortality risk
- Pricing and risk management for product guarantees
- Solvency and risk based capital

For the first time we will have parallel scientific presentations, educational workshops and plenary sessions. Some of the topics of the education workshops will be:

- Pricing
- Reserving
- Reinsurance
- Capital & Solvency
- ERM
- Derivatives Pricing
- Interest rate models
- Longevity risk

Guidelines and deadlines for paper submissions can be found at http://www.actuaries.org/panama2017/call_papers.cfm

Colloquium and Social Program

Panama City, Panama
August 20 - 24, 2017

The Republic of Panama is located at the southernmost tip of Central America, bordering Colombia and Costa Rica. Thanks to its strategic location, the use of the US dollar, and because it is the Pacific Ocean terminal city of the Canal, Panama City is a leading logistics, shipping and air travel hub in the region. The city's attractiveness has captivated travelers for centuries who have decided to stan and call it home, making it a true melting pot of cultures from around the world that have formed its present day identity.

Panama City's infrastructure is well developed for sustaining large scale events and business congresses. This can be evidenced by checking the list of daily flights to several destinations in the Americas (North, Central, South and the Caribbean) and Europe, along with a list of international hotel chains that provide room and accommodations for such events.

To couple the infrastructure, Panama City offers an interesting set of touristic activities within city limits like visits to the Panama Canal, the Casto Antiguo (Unesco protected site), Old Panama Ruins, Jungles, Beaches, Rainforest, Fishing, Whale Watching - there are options for every taste. This is complemented with an excellent culinary and night-life experience that will delight you.

Accompanying Persons and Social Programs

A welcome reception, a gala closing dinner ceremony and a day excursion are included in the program for participants and accompanying persons. We will visit all the major sights in Panama City: The Panama Canal - Miraflores Locks, Gehry Biodiversity Museum, Amador Causeway, Casco Antiguo and Panama Viejo. A full day of getting to know Panama.

Accompanying Persons Program

During the week there will be plenty of activities for attendee's companions to do. Profit from three specially designed optional tours on the first, second and last day of the colloquium.

You can tour the Atlantic side of the Country crossing from the Pacific to the Atlantic in the panoramic wagon of the Isthmus train, visiting the historic Fort San Lorenzo and The Panama Canal Pedro Miguel Locks and the "New" Panama Canal. A full day of shopping in Latin America's largest Mall "Albrook" and the opportunity to enjoy a Panama Canal Partial Crossing by boat on a comfortable passenger ferry cruising under the Bridge of the Americas.

All the tours will be available at a special price separate from the colloquium's registration fee.

Pre and post optional activities

Take advantage of the time in Panama to enjoy several optional tours that can be done either the weekend before or the weekend after the meeting. These tours will be available at a special rate for attendees and their companions:

- A weekend stay in a Resort on the Beaches of the Pacific Ocean
- Weekend stay at the beautiful San Blas Archipelago
- Fishing and/or Whale Watching at the Pearl Islands
- Tour to the highlands of El Valle
