10-12 Novembre 2021

- To inform actuaries across Europe about ideas and developments in a wide range of areas of business
- Global and local issues, especially where thoughts and ideas in one economy might be of potential interest to others
- Viewpoints and the latest successful principles and practices that are of significant interest to corporate board members, politicians, actuarial professionals and captains of industry in the financial, actuarial-related arena

10-12 Novembre 2021

- The goal of TEA is to increase the number of European actuaries that receive and read the magazine
- We welcome more actuaries sharing their visions and experiences by participating with articles. Initial outlines are preferred before a piece is commissioned
- Sharing knowledge via this unique platform will become more and more visible and useful especially when ideas from national associations can be shared more widely
